

Montreal, May 1st, 2018

-PRESS RELEASE-

Mr. Mayard has been appointed Physics Councillor by the C.A.P.

The Advisory Council of the Canadian Association of Physicists recently unveiled the newly elected Councillors for a two-year term within its national organization. It is with jubilation that the LMS team congratulates Mr. Mayard, Founder, and President of the LMS Center, for his new position as the Physics Councillor of CEGEP and high school members in Canada ([Biography](#)).

In fulfilling this new role, Mr. Mayard will attend two annual meetings in Ottawa. A panoramic view of his tasks, reveals the following main responsibilities:

- Advise the CAP, from a teaching perspective, on its initiatives and innovative projects relative to physics education.
- Make the liaison between the C.A.P and College as well as High school teachers members across Canada.
- Communicate and answer questions from teachers across Canada who need resources for the curriculum or who wish to join CAP.

The Canadian Association of Physicists is the voice of physics in Canada. It brings together a community of more than 1,500 scientists, teachers, professionals and students whose common denominator is education, research and the development of physics in Canada
The LMS team wishes Mr. Mayard great success in his new role of Physics councillor with this organization.
