

Montreal, february 10, 2011.

-PRESS RELEASE-

Patrick Mayard joins the committee of engineers of the CRC Robotics Competition 2011

Patrick Mayard participates in the 10th anniversary of the Robotic CRC competition as a judge of the engineering committee. He is one of the rare teachers from Montreal to join this committee, with his experience in robotics and his knowledge of physics, he can both evaluate and advise students on the conception and the mechanical function of their robot.

More than 20 inter-secondary schools and colleges participate in this competition that will take place at Lester B. Pearson high school from February 10th to the 12th. In addition to constructing a robot, each school participant must create a web site, a video, produce a newspaper and make a kiosk. These different tasks reflect on the multidisciplinary character of this Robotics competition that aims to inspire future leaders, engineers and inventers. The LMS Centre wishes success to all the participants!
